Frontend Developer

Experience

Frontend Developer – Alius Remote
August 2023 — August 2024

- Developed fully responsive client websites, including full-stack and frontend-only projects.
- Created dynamic and interactive sites, implemented animations and reusable components.
- Developed reusable components and readable code
- Developed applications with features like authentication, login, and admin dashboards.
- Collaborated with the lead designer to ensure that we're implementing the best user experience for our user base.
- Worked with JavaScript and its libraries like React and Next.js, and worked with CMS systems such as Sanity, Strapi, and Shopify.

Digital Marketing Trainee – Tactica
March 2022 — September 2022

- Demonstrated strong communication skills through content writing, competitor analysis, and delivering detailed SWOT analyses.
- Analyzed the digital presence of competitors to inform strategic decisions, ensuring clear and effective messaging across various platforms.
- Researched keywords, meta-tags, on-site SEO, found trending keywords.
- Developed and executed Facebook ad campaigns using Facebook Ad Center, creating scheduled posts and managing a variety of ad formats.
- Demonstrated a client-centric approach, ensuring tailored responses to client needs while maintaining focus on delivering results.
